

FIRST[®] in Florida

Inspiring Florida's Youth to Excellence in Science & Technology!

FIRSTFL.org

Congratulations *FIRST* LEGO League Graduate!

As you finish middle school and enter high school, you'll find the next few years challenging and rewarding. The skills you learned in *FIRST*[®] LEGO[™] League have prepared you well: **Teamwork – Learning from Mentors -Gracious Professionalism–** all have given you a strong foundation for continued excellence.

And the *FIRST* fun isn't done! FLL graduates may find **FIRST Tech Challenge (FTC)** an exciting next step. Building on the engineering and programming experiences you enjoyed in FLL, FTC runs on a similar competition schedule (Sept. through Feb.) and employs familiar LEGO components with the robust TETRIX[®] build system and other materials

You may also enjoy **FIRST Robotics Competition (FRC)**, posing a whole new set of exciting challenges with bigger teams, a much larger robot and a short, fixed build period that kicks off the first weekend in January and ends just six weeks later.

**WHAT TEAMS
AND EVENTS
ARE LOCATED
IN MY AREA?**

To find out if your high school offers either of these exciting *FIRST* programs, visit FIRSTInspires.org. If you don't see a team in your area, and would like to learn how to start one, contact us and we'll be happy to help connect you with mentors and resources.

Remaining part of *FIRST* in high school isn't just fun, it can also be rewarding, with some of the most prestigious universities in the country providing over \$25 million in scholarships for students on high school *FIRST*

teams!

Wishing you a *FIRST* rate future, in high school and in all your endeavors! Visit FIRSTFL.org to learn more about our *FIRST* Family of Programs, how you can stay involved and to find regional contacts in your area.

Warmest regards,

All of us at *FIRST* in Florida
